NYPD Cyber Intelligence & Counterterror Conference  
Marriott Downtown, 85 West Street, New York  
March 18-20, 2019

Dear Mr. Kevin Metcalf,

On behalf of the New York City Police Department and Commissioner James P. O'Neill, I write this letter to invite you to present at the NYPD's Fourth Annual Cyber Intelligence and Counterterrorism Conference. This year our conference is being held in association with the Global Cyber Alliance, and the theme is Defending Critical Infrastructure. The conference will be held from March 18<sup>th</sup> to the 20<sup>th</sup> 2019 at the Marriott Downtown, 85 West Street, New York, New York.

For four years, our conference has gathered law enforcement and intelligence leaders from more than 75 of the world's most prestigious police agencies and military organizations to discuss trends, developments, and threats to our shared security. Your contributions to the fight against terror and the cyber security and intelligence fields have proved exemplary over the years. We would be honored if you shared your experiences, views, and opinions with the conference attendees on either the 18<sup>th</sup> or 19<sup>th</sup> of March on the Human Trafficking Experts Panel. We will confirm the exact date soon.

Please note that media organizations will not be permitted for the duration of our conference. Still, we shall operate under the Chatham House Rule to encourage a free, comprehensive, and inclusive discussion.

If you are able to participate, please have a member of your staff contact our event coordinator, Nick Selby, the NYPD's Director of Cyber Intelligence and Investigations, [nselby@nynjhidta.org](mailto:nselby@nynjhidta.org), at (646) 805-6435. If you choose to participate, the costs related to your travel and accommodation will be covered in full.

I thank you for considering participation in our event. I truly hope you will be able to address our delegates and attendees.

Sincerely,

Thomas P. Galati  
Chief of Intelligence  
Intelligence Bureau  
New York City Police Department
